

Holbrook **Green Team** (sustainable ecology for our village).

Wouldn't it be great If Holbrook was the first village in the **whole country** whose residents turned their village into a place that nurtured wildlife and made important changes to improve our sustainability?

Wouldn't it be great if **Spring Watch** came to Holbrook to show the nation how one village can improve the ecology of its village by community effort?

Wouldn't it be great if **Holbrook** became the template for other villages and set the example how the humble people of a nation can turn around the future of our environment?...**and shame the government into action!!** :-) Yeahhh !!!

Impossible? Too big a problem? Not a cats chance?.....**well lets see.....**

Below is the most important, fun, questionnaire you are ever likely to fill in...

Place a tick for yes if you agree to each question...

Yes	Question
	Would you like a bird box in your garden?
	Would you like to know (with the help of experts) what mammals insects birds come into your garden and record them into a village data base?
	Would you like to see our verges dedicated to pollinating plants and flowers?
	Would you like to see what comes into your garden at night with a borrowed night watch camera?
	Would you like to adopt a tree in the village to monitor through the seasons?
	Would you like to have a small compost in your garden but don't know how to build one?
	Would you like to learn about the wild flowers in your garden and village?
	Would you like to promise that your whole family to not use your car for one day every week?
	Would you like to see bat and bird boxes in public places around the village?
	Would you like to see safe cycle routes through Holbrook for the school run?
	Would you like someone to install a pond (it can be very small) in your garden?
	Would you like to see a plastic recycle unit in the village?
	Would you like use seeds collected by residents gardens and contribute with your own?
	Would you like your children to learn about sustainability through experience?
	Would you like to participate in a map of Holbrook classifying as many insects, plants, and trees as we can?
	Would you like to encourage our local woodland owners to become part of our habitat monitor scheme?
	Would you like to see a grow your own veg/plant exchange?
	Would you like to have available in the village affordable ecological products that are environmentally kind?
	Would you like to help your village become a greener place, however small a gesture by being aware how important this is for our future? Of course you would!!!

PTO

How did you get on? By just bringing to your attention how easy it is to make small changes is the first step to a greener happier village. Interested? Please enter your mobile number and I will keep you informed of events if you would like to become involved in a very small way to make these changes happen. Don't panic your mobile number will be confidential, not passed on to anybody and I will not be harassing you with messages , just keeping you informed. :-)

Thank you for your time... the future of your environment is up to you! :-) :-) :-) xx
